

Zyad Ashraf Ramadan

Backend Developer | Laravel & TALL Stack | Multi-Tenant SaaS & Real-Time Systems

01114656758 | Miami, Alexandria, Egypt | zyad3300992@gmail.com

linkedin.com/in/zyad-ashraf | github.com/Zyad009

SUMMARY

Junior Backend Developer proficient in Laravel, Livewire, and RESTful APIs, with experience building E-commerce, LMS, Multi-vendor, ERP, POS, and Inventory Management systems.

WORK EXPERIENCE

Fullstack Developer | Proleaders Company | Full-time

Jul 2025 – Present

- Developed and maintained an LMS platform with direct integration to the National eLearning Center (NELC), Saudi Arabia.
- Integrated multiple payment gateways (Tabby, Tamara) and social-media lead-generation webhooks (Facebook, TikTok).
- Contributed to core ERP modules — inventory, tickets, warehouse, CRM, and accounting — within a backend team.

Backend Developer | Rowad Company | Part-time

Sep 2025 – Feb 2026

- Engineered backend features for a multi-tenant SaaS POS (order management, reservations) with real-time communication via Pusher.
- Built a Kitchen Display System (KDS) on the pipeline pattern, with multi-printer routing across main and sub-kitchen sections integrated with custom printing software.

SKILLS

Core: PHP | Laravel | Livewire | Alpine.js | Tailwind CSS | MySQL | Redis | RESTful APIs | OOP | Design Patterns

Architecture & Integrations: Multi-tenancy | Multi-database | Real-time | Queues & Jobs | Caching | RBAC | Payment Gateways | Webhooks

Tools: Git | GitHub | Postman | Sanctum | Spatie | VPS | AI Tools

Languages: Arabic (Native) | English (A2)

PROJECTS

PMS SaaS "Fitzone" (API-Only)

Jul 2026 – Sep 2026

Built a fully API-driven, modular multi-tenant gym-management SaaS (Core, POS, Inventory & Assets modules) covering memberships, QR-code attendance, flexible subscription plans, WhatsApp integration with dynamic messaging, AI-powered reporting, and RBAC on a multi-database architecture.

Tools: Laravel, RESTful APIs, MySQL, Redis, Eloquent ORM, WhatsApp API · Deployed on VPS fitzone.dev

Deli Call Center – Restaurant Reservations & Call-Center SaaS

may 2026 – Jul 2026

Architected a multi-tenant (single-DB) reservations and call-center platform on the TALL Stack, with real-time two-way sync to the Deli POS so agents manage live table availability and booking status across restaurants from a single dashboard.

Tools: Laravel, Livewire, Alpine.js, Tailwind CSS, MySQL, Pusher, RESTful APIs · Deployed on VPS deli-callcenter.rowaduae.com

Multilingual Portfolio Platforms "Alfaleh" & "Abkar"

Jan 2026 – Feb 2026

Delivered two Saudi-based multilingual portfolio platforms for translation & localization services, each with a CMS dashboard for content management, a showcase section, and a modern UI.

Tools: Laravel, Livewire, Alpine.js, Eloquent ORM, SweetAlert, FilePond · Deployed on Shared Hosting alfaleh.org | abkar.org

Deli POS – Restaurant POS System (API-Only)

Oct 2025 – Feb 2026

Engineered a fully API-only (headless) multi-tenant POS backend for order and table management, with real-time integration to a dedicated printing software and a Kitchen Display System (KDS) that routes tickets to multiple printers across kitchen sections.

Tools: Laravel, RESTful APIs, Sanctum, MySQL, Pusher, Eloquent ORM · Deployed on VPS deli.rowaduae.com

E-Commerce "Elhagry for Electronics"

Jun 2025 – Jul 2025

Built a dynamic electronics store with Google authentication, cashier system, branch management, delivery zones with custom pricing, RBAC, and secure InstaPay / e-wallet payments — real-time management via Livewire.

Tools: Laravel, Livewire, Socialite, Eloquent ORM, Git & GitHub, SweetAlert, FilePond · Deployed on Shared Hosting elhagry-elec.com

LMS SaaS Platform "ReOps"

Jun 2025 – Jul 2025

Contributed to an early-stage SaaS Learning Management System, building core modules: courses, tasks, role-based access control, and scheduled jobs.

EDUCATION & TRAINING

Bachelor of Agricultural Sciences | Alexandria University 2024

- Major: Fish Farming & Aquaculture — Excellent (A-) | General Grade: Very Good (B+)

Backend Developer Track (PHP / Laravel) | Eraasoft Academy Aug 2024 – Dec 2024
